The screenshot displays a web application interface with a modal dialog box open. The background is a dark gray, and the modal is a white box with a close button (X) in the top right corner. The modal is titled "Information" and contains the following text:

**NPM:** 202310038  
**Fullname:** raihan win cahya  
**Birthdate:** 2002-03-08  
**Age:** 21 years old

Below this text, there is a horizontal line, followed by the same information repeated:

**NPM:** 202310038  
**Fullname:** raihan dwi win cahya  
**Birthdate:** 2002-03-08  
**Age:** 21 years old

The background application has a header "Widget Two" and a table with two columns: "NPM" and "First Name". The table contains two rows of data, both with the value "202310038" for NPM and "raihan" for First Name. Below the table is a blue button with a plus icon and the text "Add new row". To the right of the modal, there is a form with a "Birthdate" label and two input fields, both containing "2002-03-08". There is a red trash icon next to the second input field. At the bottom right of the form, there are two buttons: "Clear" and "Save".
